GETTYSBURG FIELD. Showing the Restoration of National Harmony.

As a meeting of the Philadelphia Bri gate Association recently two projects, submitted by John W. Frazier, were received with hearty approval. Both bore upon the battle of Getsysburg, and one upon the battle of Getsysburg, and one in Rome than there are days in the year, was to put in lasting and artistic form the was a put in leading and arrises corn the armies which contested that bloody field. The first proposition was that Rother-nee's great positing, "The Battle of Gestysburg," which has been exhibited all over the country, and is now in the Hall over the country, and is now in the Hall over the state of Releas at Herrishma. So genoval to this

papers and the Art Chibot Fridade, pina to two operate with the brigade in providing for the proper care and protection of the painting. The resolution was adopted, and it was suggested that a vacant room in the City Hall, immediately above the Tax Office, would be a convenient and suitable The X-Ray Cough Syrup

prace for the painting.

Alt. Frazier's second proposition was that a companion picture be painted and hang opposite the "Battle of Gettyeburg."

The first picture being of war, the second about the painting of the proposition of the proposi should be peace. The idea, he said, was to get a linudred or so of Pickett's Confederates and an equal number of Union soldiers, have them clasping hands over the stone wall portrayed in the war scene, with sneep and cattle grazing near-by, emblematic of peace and the re-union of North and South. This scene is to be mutographed, and from the protograph i painting not quite so large as Rotherme

TO HARNESS THE SUSQUEHANNA. Work will be commenced next month in the construction of a power plant on the Susanehana river at York Haven.

From 6.0 to 1,000 men will be put to work, and the plant is expected to be completed within eighteen months. Engineers have variously estimated the cost 100. A power house to contain eighteer machines, with a capacity of 1,000 norse power each, will be creeted near the York Unven paper mill. A wall of nasonry three-fourths of a mile long will be constructed from the power house to the intersection of a dam, which will be alls. The plant will be developed by the Fork Haven Power and Water Company, composed principally of New York capi-

A SABBATH IN ROME.

The Sabbath of which we write is May 27th. For some days we had been in search among the raise of antiquity of this great city, but determined to spend the Sabbath in looking in upon the Chris- citizens of our county, recently wrote for Philadelphia Veterans Plan a Great Painting tian churches that in modern Rome have taken the place of heathen altars and temples of the past. If Rome is the most noted city of the world for the greatest number and best preserved rains of an-

eral of the leading denominations. The earliest services of the day are 552, enlarged in 452, and rightly organienting the Mayor, City Councils, the newspapers and the Art Club of Philade phia to to-operate with the brigade in providing masters, in succeeding years, sold out the office to Senary Leader and Among the many interesting things moved to Carlisle. In 1846 published shown visitors within the church are toe comb of Clement 1X and the beautiful Confession, in which, we are told, are preserved the relics of the gradie of the Saviour, and the podies of St. Matthias

> On the way our first surprise was to find most of the stores open and business. named on much as on other days. The contrast, in this respect, between the Satisath and Ascension Day was quitenoticeable. Then very lew mismess New Oxford and took charge of the Getplaces were upon, now very few were tysburg Railroad; also acted as chief closed. We also noticed posters and nonnering a national election to be held 1857.

Un reaching this magnificent church of the only ones led father by carlesity. Upwards of thirty thousand pagring and possibly a thousand tourists are now in thers many were using the confessionals This last named ceremony was altogether front of the confessionals and without a word being said by either party the priest after which they would rise and pass on igain. We are told this is a substitute for the imposition of hands and is re

genual prother, with elerical cast, gown and bands on ready to enter his paint for county, and three in Cumberland counnorming services. We had only time to ty; four in Maryland, and two in Pennlearn that he is encouraged with his work sylvania, one in Virginia and two in church property, well located.

From here we went one square farthe to the Methodist Episcopal church. This confitted, and other matters taken up. "Oh, I don't know," said the farmer, is a very excellent structure, erected in "no more foolsh, perhaps, than I S5, on the corner of two good streets in grants from Ireland, and the origin of one of the best parts of the city. There are two excellent audience rooms on the first fleor, and a sermon was preached in dealer, "that will wear like iron." I guess that feller was no liar, "said the other in English, by Rev. F. H. suit is rusty already,"—Indianapolis Press.

There were those who didn't besitate form in Signal self-carried by the bome church, it is still supported by the bome church, and a sermon was preached in Gitt, and father of Daniel Gitt, was ben Oct. 15, 1748; died such and the same time, one, very earnest in the other in English, by Rev. F. H. suit is rusty already,"—Indianapolis Press.

There were those who didn't besitate form the house tops.

Wright, missionary in charge. This is an American mission, founded in 1875. It is still supported by the bome church, about four miles from Hanover, then

wait years, if need be, to attain that Philip's determined attitude forced a more explicit reply from Mrs. Felton, and she finally admitted that to their union in that her husband wa not dead but living.

win her affection, and was willing

Quivering like a stricken deer under the blow, Philip began involuntarily piecing together in his mind certain deas, the chief of which was that Felton had been the maiden name o John's wife, and on a sudden the awfu truth flashed upon him. "John Carle ton-he is your husband," he said huskily. For answer she burst into un

controllable weeping. When a little calmer she told her story; of how John had begun to outertain an unreasonable ealousy of her; of how they had quarreled, and that he had said words to he that her pride could not brook, and o low, in a moment of madness, she had gone away, determined never to live with him again ; of her aubsequent repentance shame had kept her from returning to Whatever might have been the state

of Philip Penrose's mind that night as he sat in his study, his pen never faiterso in the message it was writing to John Carleton. The answer that came by return post was to the effect that John Carleton atterly repudiated his wite, he would never forgive her desertion of him and was about to seek divorce. And so there came to Philip Penrose the greatest temptation of his life. Ali

through the long, weary night he wrestled with it, and when morning came it found nim aged and worn, but with a grim, determined look on his face. Into the letter that was to plead for the honor and happiness of the two beings he loved best on earth he threw all the elequence and passion of which he was capable. With what magical power he wrote may be udged by the reply: "Dear Old Boy; You have commered.

lou have shown me plainly wherein I

was wrong and the way to happiness again. I long to clasp my wife in my arms. God bless you, Philip." And Philip? Well, he is one of the Alter that mairiage the letters he ablest physicians of the day and has tween the old friends were not so numamassed a fortune. His hair and shaggy erous, but still they wrote that Philip beard are quite gray now, and he is still knew that, though a new love had come bachelor. But, standing on his desk in nto John's life, there was still the same heart-shaped frame, there is a picture ol a young girl, whose dark eyes bear a About two years after John's marriage

singular resemblance to John's wife. It ddip was stunned at receiving a letter may be that it is while gazing abstractroin his fitend, apprising him of the fact solv at the counterfeit presentment of that his wife tad left him for no other liss Carleton's girlish beauty, and somereason than that they had quarreled, and limes pressing it fondly to his lips, that that John, in a moment or temper, has be finds inspiration for the brilliant and said something for which he was afterlearned treatises with which he chal wards sorry. The shock to Philip was leages the admiration of the medical and icientific world.—Roston Post to that moment be had belived John's marriage to be as ideally happy as uny

fend the same. In A. S. Wright vs. I, P. House motion for new trial argued; decision reserved, Answer of Hugh C. Hinkle to rule on him on petition of Charles H. Millisin, of Ealtimore, to show cause why he should not pay over money collected by him, if a Cavalry, during the war for the Fuor, and hyspires being Charlesh of the Fuor.

The appeal of William McSherry, Esq., and Dr. Bichard McSherry from the action of the Borough authorities of Littlestown extending the limits of that borough ar-

and thecision reserved. THE SHOW IS COMING.

The first show of the season will visit his place on July 4. Surely this item of news will please the young lolk, the children, and the older emes also. Sun Bros.' World's Progressive Show is one that has a standing record for a good performance in one big ring, in the good old style. Sun Bros, run their show rictly on business and moral principles. Nothing is permitted to appear that will mar the pleasure of the skeptically incoined. Neither are the usual army of fakers (often seen following in the wake of shows) allowed to follow this organizacon. The long-standing reputation of the Sun Bros. throughout America, and the

Dominion of Canada shall not be jeapordized by allowing any catch-penny affair to be connected with their show. Fifty great celebrated artists will appear at every performance. Fully two hours and a half of enjoyment is afforded for 25 cents, a price which is surely within the means of veryone, Let all attend. Afternoons at o'clock. Evening at 8 o'clock,

Your best friend can give you no better dvice than this: "For impure blood, dvice than this: bad stomach and weak nerves take Hood's

## ALLEMAN'S

UP-TO-DATE

NEWS.

ES, EVERYBODY IS TALKING about the new Hardware Store at Gettysburg-the car loads of goods and the astonishingly low prices prevailing in all departments of the store. Really, it makes one feel good when they see that their endeavors to please have met with a hearty response in orders. We certainly did not expect such a rush of customers in so short a time. We did expect to "get there" slowly in "the course of events," but calculations have all been out-done and our clerks are most fagged out from over-work. We attribute this to judicious advertising. The people these days are ever watchful for the live advertiser and we appreciate the fact and give them something worth while to read.

The vitality of the clover seed is re mark ble I know of no seed of a 148 fil plant that will undergo so many hoxious conditions and yet retain its vitality Let it is sensitive as to the conditions for germination and slubborn about amounting unless they are favor able. It will lie in the ground for years and endure all kinds of huntful behavior of the elements and ie all rgbt for germin ition when they are favorable [1] have the best illistration of this prop erty of the clover seed in my own experience this seison that I ever saw or heard of so remulate is it that I fear some one nay question the vericity of the writer and to such I wish to say

that I can substinuite the I say by proof that no one will question who will investigate In 15 > I bought a bottom farm. Nearly all the fard is at lect to overflow, in very wet seasons. About seven acres in a connected one la geneld was seeded to clover and functing 11 as GATARRH wis the lowest ground in the field ind final tast of term most rable to be under water. There in the fact that tast of term and the final tast of term and the first tast of terms and the first tast sons sufficient to destroy the mealow which hil produced a good crep of mixed hiy for several years por to 15 if when twisplowed it and planted to corn. The next year, 180 was in overflow year and a but one. And the water on this field was live feet deep through May and June and Wisover if all till the middle of July lint tall after the water went door it plowed in d nowed, the full to wheat and seeded to Limothy H remained a Limothy meadow for lone or us, the put where the old mead by was being trice unara water. In the fall of 15 f the fill was plewed and sowed to wheat and in 15) was also sowed to wn at a dagan n 15 % when on this out the idov hind there came as pre-ty-a stimit of clove - B evergiew mywheio Niwheit else in the neld was there any clover except dong a road that led from the old meadow to a hy shell about one touthousen leds and and observing and been hould over this road since the old merdow had been plowed up. Piece is no way of accounting for this plie somenon except that the seed nem med there is the ground for cight years under conditions mos it you able to desirou it, and also went dome safy through conditions apparently he will be used accepted when a grew. I as proves not only the wonderful vitality of the seed, but also shows its a chists to germinate unless conditions it exactly suited to its requirements. Applied itly in this n stance the cordit one wie the same for three series at east-ter were three wheat crops take i ift she ground tad the plowing had been done each year at atom the sum may be in spring of 15) was be most tixe at lor cover, Level temen ber weing. S. S. IS THE IDEAL TONIG AND BLOGD PURIFIER FOR OLD PEOPLE.

Its Coming is Looked Forward to With Both Joy and Fear and its Safe Arrival is Hailed With

nure, Professor W P Massey says "Many of our friends still seem to be imbued with the old"liking for wellnotted manus We do not want to let our manure get well notted before we apply it to the land. The place to rot the manure is in the soil, where you have the soil to absorb everything. If the manuse is spread on the surface, the soluble parts wash immediately into the land, and the loss is smaller than in any way the manuse can be treated, far less then when sho realizes the terrible pain and suil rin, through which she must press while be origing the little one into the world. An indexcibible has of the fine world. An indexcibible has of the fine world. An indexcibible has of the fine world in our attendant upon the orderal sconn dissipates his joyfulness.

I consume a his joyfulness.

I consume his possibitely no nee westly for the sufferings which attended manure is largely ammonia in a volatile form. No matter how well the manure is handled, there will always be the trying from, expectant mothers can be knewly and the current of the manure with the fine world manure is largely ammonia in a volatile form. No matter how well the manure is handled, there will always be more loss from it in the baroyard than the field. Manure on the surface keeps the soil most, and prevents the baking of a clay soil. In our experience, right on top as near as may be a first if devent are cannot be manure. than pring in the barnyard, either un the best possible place for the minure Lately I have had a sample on a small scale of the value or surface manuring on a clay soil. A year ago we built as out college t new lecture half labora stand in stand it imports they know the pum and it imports say nothing of the dan I imports say nothing of the dan I imports say nothing of the dan I is it ind's second say it at a belief to read the little book. If it is laid is local, the luttle book I is laid in late in the law that contains and matter in figure a laid in the grounds around the building. I have been trying to convert this clay with a six free it any on way stade. our college t new lecture half labora into a gaiden (criss plots were form ed and large shrubbery beds prepared. and planted in the untained clay At ter everything was planted a good coal of manue was placed on the surface, and left there. Last summer was the

USE OF FARMYARD MANURE

Argument Against Keeping It on Piles

In writing of the use of farmyard ma

hottest und dryest ever known here. but it was pleasant to see how things grew and illurished in that day, which was merely the subsoil piled three or four feet deep. This apring the soil in these beds works as mellow as the fradition if sah heap and the bloom of the coses and shrubbery of all kinds is simply am ming, being fully twice as great as with the same kinds of plants in nat-in il soil everywhere. I use manure as a mulch either in garden or held. In the guden after setting plants or planting seed, the madure is spical over the sin face and left there to be slightly worked in during citivation ' WASHINGTON ST., GETTYSBURG, PA

BERRIES "What is so tare as a day in June?" The rareness' of a day in June is not entirely limited to bird song and Iloral fragiance and golden simuline The month of roses is also the month of berries. Finit is the 'flower of commodity" No other of all the Catator's work combines to so great an extent both be sufy and at lity. To the ordent lover of beines none contains such a combination of all that delights the sense of ameli sight and trate, as the strawberry the enliest of natures

THE STRAWBERRY---THE KING OF

treasures \lambda nught by t [ raise is heard for this fruit from the humble little vigabond berry growing wild in meadow or pasture to the coddled priz winner of some fruit specialist. The whole someness of strawberries is not gener illy understood. They are regarded as r plasing authlement to nourishing food rither than as realiting adjunct to the bill of fare Coming in the spring when the system is sluggish, the and of this larry probably fills a more important place in the human economy than is usually recognized. Many years ago, Lauragus declared that gold inight he prevented by a free use of strawbe ries night and morning, while later times have proved straw cernes to be especial ly length at to persons of an tempt or thour the tendencies O ten the demon bil ousness may be more surely routed by a generous allowance of fresh tipe 11 14 to my sulequent strawberries than a drug course These bernies have in some cases provid an antidote to the poison of milima the acid in striwberries is combined with soda and potash, forming two at
